Frequently Asked Questions

Why should I consider a career as a professional truck driver?

Historically, truck drivers have enjoyed one of the most stable professions in our country. Even in tough economic times, experienced truck drivers have been in demand.

As the U.S. economy becomes even more global, truck drivers make sure American consumers have the goods they need, where they need to be, when they need to be there. If you are self-motivated and like to work on your own, this is a good career choice for you.

How much does a professional driver make?

Drivers get paid in a variety of ways, but all drivers can have a direct impact on the income they can make. Experience and good work ethics will impact your earning capacity. Typically, an entry level driver starts around \$30,000 per year. Many experienced drivers make as much as \$50,000+ per year.

Why do I need a CDL or CLP (Permit)?

In order to operate a commercial vehicle on public roads, you must possess a valid CDL or CLP (Permit) and meet the same qualifications as ALL Commercial Truck Drivers.

Is a Commercial Learners Permit required before I start class?

No, you will get your permit during class.

Do your trucks have automatic transmissions?

No. Most of them are 8, 9, or 10 speed transmissions. Most trucking companies do not have automatics. We train to give our students options with as many different types of companies as possible.

I have never driven anything with a clutch or manual transmission. Will this be a problem?

In many cases this may be an advantage. Manual transmissions in big trucks do not operate the same as a manual in a smaller vehicle. You will not have to "unlearn" old habits.

Why is there a fuel surcharge?

The average OFTC student will drive 800 to 1000 miles during the class in a Class 8 commercial truck. These vehicles get approximately 6 miles per gallon. So the average student will use around 160 gallons of fuel. At \$4 per gallon the cost to the school is \$640. The fuel surcharge helps offset some, but not all, of the cost.

Can I get help paying all these costs?

There are various forms of financial aid available. OFTC admissions specialists can help you get the information you need on these programs.

How can I recover my costs for this training?

Graduates of the program are trained to be a Commercial Truck Driver. You will have increased earning ability and a marketable skill. Additionally, many of the major trucking companies who hire our graduates have tuition reimbursement programs. Many of these pay you in increments based on longevity above and beyond your regular pay until you have recovered the cost of your education.

How do I find a job?

OFTC has graduates working with most of the major carriers and are representing our College well. This makes employers more receptive to hiring additional graduates. Driver recruiters visit our classes. Many students have pre-hire commitments before their program is completed. We have many other sources of employment information and contacts to help our students find successful careers.

Am I obligated to work for a particular company?

No. When you complete our program, the knowledge and expertise that you take are yours.

Do I have to go over the road?

You are not required to take any position that does not benefit you or your family. If you do not already have a job waiting, Over the Road carriers are great ways for new drivers to get experience. Once you have one or two years of experience, your options will expand.

When I go to work will I be on the road alone to start?

Most major companies have "Driver Finishing Programs" where new drivers ride with an experienced driver for a period of time until he or she is ready to go it alone. This is usually 6 weeks or less. New drivers normally receive training pay while in this program.

Verification of Lawful Presence in the United States

Effective January 1, 2012, all students applying for in-state tuition must provide validation of lawful presence in the United States. - A current ID issued by the State of Georgia after January 1, 2008
- A current Driver's License or ID from:

Alabama: Issued after August 1, 2000

Florida: Issued after January 1, 2010

South Carolina: Issued after November 1, 2008

Tennessee: Issued after May 29, 2004

- A certified U.S. Birth Certificate showing the student was born in the U.S. or a U.S. territory. A photocopy is not acceptable.

- A U.S. Certificate of Citizenship (USCIS form N-560 or N-561).
- A U.S. Certificate of Naturalization (USCIS form N-550 or N-570).

Any student who cannot be verified as lawfully present in the United States is not eligible to be considered for in-state tuition, regardless of how long he or she has lived in Georgia. In addition to being lawfully present in the United States, students must meet the in-state tuition requirements as outlined in TCSG Board Policy and Procedure V.B.3 to warrant an in-state classification. Students that are initially classified as out-of-state, and successfully petition to have their residency changed to in-state also have to meet the verification requirement.

CTD Disqualifying Conditions

Here are the physical conditions that disqualify a truck driver from obtaining a CDL (commercial drivers license) and operating a commercial motor vehicle.

1. Loss of use of extremity.

Loss of use of a foot, leg or arm, subject to a Skill Performance Evaluation of ability to safely control and operate a commercial motor vehicle even with a prosthetic limb.

2. Diabetes.

Medical history of clinical diagnosis of diabetes currently requiring insulin. Diabetics whose condition is controlled with oral medication and diet may qualify.

3. Cardiovascular.

Current clinical diagnosis of myocardial infarction, angina pectoris, coronary insufficiency, thrombosis, or any other cardiovascular disease of a variety known to be accompanied by syncope, dyspnea, collapse, or congestive cardiac failure. Coronary artery bypasses & pacemakers are not disqualifying, but Implantable cardioverter defibrillators (ICD) are disqualifying due to risk of syncope.

4. Respiratory.

Established medical history or clinical diagnosis of a respiratory dysfunction likely to interfere with the ability to control and drive a commercial motor vehicle safely. Examples of disqualifying respiratory conditions are emphysema, chronic asthma, carcinoma, tuberculosis, chronic bronchitis and sleep apnea.

5. Hypertension.

Any detection of hypertension requires frequent rechecks. A blood pressure of 180 (systolic) and 110 (diastolic) or higher is considered Stage 3, at high risk for an acute event such as a stroke. The driver with Stage 3 hypertension may not be qualified, even temporarily, until reduced to equal to or less than 140/90 and treatment is well tolerated, and thereafter rechecked every six months.

6. Other physical limitations.

Clinical diagnosis of rheumatic, arthritic, orthopedic or vascular disease which interferes with ability to control and operate a motor vehicle. This would include, for example, known to have acute episodes of transient muscle weakness, poor muscular coordination (ataxia), abnormal sensations (paresthesia), decreased muscle tone (hypotonia), visual disturbances and pain which may be suddenly incapacitating. Medical examiners must evaluate the severity and the likelihood of impairment affecting safe

operation.

7. Epilepsy.

Established medical history or clinical diagnosis of epilepsy or other condition known to cause loss of consciousness. Single episodes of non-epileptic seizure or loss of consciousness are evaluated regarding likelihood of recurrence, with a six month waiting period highly recommended. Drivers with a history of epilepsy/seizures off antiseizure medication and seizure-free for 10 years may be qualified to operate a CMV in interstate commerce. Interstate drivers with a history of a single unprovoked seizure may be qualified to drive a CMV in interstate commerce if seizure-free and off antiseizure medication for a 5-year period or more.

8. Psychiatric.

Mental, nervous or functional disease or psychiatric disorder. This is often a subjective evaluation and easily overlooked by medical examiners.

9. Vision.

Must have corrected vision of at least 20/40 in both eyes. One who is blind in one eye cannot qualify.

10. Hearing.

Must be able to perceive a forced whispered voice in the better ear at not less than five feet with or without the use of a hearing aid. If tested by use of an audiometric device, must have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz and 2,000 Hz with or without a hearing aid.

11. Uses a Schedule I drug or other narcotic, with a narrow exception for prescribed medications.

Exception. A driver may use such a substance or drug, if the substance or drug is prescribed by a licensed medical practitioner who: Is familiar with the driver's medical history and assigned duties; and has advised the driver that the prescribed substance or drug will not adversely affect the driver's ability to safely operate a commercial motor vehicle.

12. Current diagnosis of alcoholism.

These are not Oconee Fall Line Technical College rules. See the Georgia Department of Driver Services web site for more information:
