and Additional Online Information for Students

Welcome to Oconee Fall Line Technical College! I hope you will have a great semester as an online student with us!

This document will give you information on a variety of topics that will help you become a successful online student at OFTC. As an online student, you have access to the same services that the college provides to all of our face-to-face students. Please take time to review the OFTC website or the Student Online Resources tab in your Blackboard courses to become familiar with the services, policies, and procedures of the college. New Student Orientation information is available on the Services tab on the website. If you are new to the college, please view this orientation.

Oconee Fall Line Technical College promotes a climate of academic honesty, critical investigation, strong work ethic, intellectual freedom, and freedom of individual thought and expression consistent with the rights of others. OFTC is a student-centered organization which provides students with a full range of educational opportunities while maximizing their chances of success. Specifically, OFTC strives to provide students with educational programs and services that assist them in clarifying and attaining their career goals. Please read the Student Code of Conduct section of the OFTC Handbook beginning on page 68. The OFTC Handbook is available on the OFTC website.

OFTC cares about your success in our classes. During normal college operations, we have tutoring labs where you can receive **free** tutoring in your classes, or you can use a computer to complete your coursework. To see hours of each Tutoring Center location, please visit the OFTC website. During extended college closures due to impacts like COVID-19, you have access to tutors via email, phone, and virtually using Blackboard Collaborate. You also have access to online resources by subject. Visit the [Online Resources](#) page of OFTC's website.

Communication with your instructors is also an important tool for student success. In each of your Blackboard courses, you will find contact information for your instructor. Please do not hesitate to email or call him or her whenever you have a question or concern.

If you have any questions about operating Blackboard, please feel free to email me at syearty@oftc.edu or call me directly at 478-274-7648 or toll free at 877-399-8324 and ask receptionist to transfer your call to Sherry Yearty.

Email is the best way to contact me. Please include the last three digits of your Student ID number and the CRN number of the course in which you are having problems.

Good luck with your courses this semester!

Sincerely,
Sherry Lewis Yearty
Director of Instruction

Bb Student, the name of the Blackboard mobile app, was designed with you in mind and with the intention of providing a more user friendly and modern experience to help you achieve your educational goals. Some of the key features include:

- **Blackboard Collaborate:** Join online classes directly from your mobile phone with Bb Student.
