### To Apply:

Applications can be submitted online at [www.performancepowersystems.com](http://www.performancepowersystems.com) . For assistance or more information, please contact Saketta Brown, OFTC Career Services, [sdbrown@oftc.edu](mailto:sdbrown@oftc.edu).

### Skills Needed and Description of Job:

(This list is meant as a general overview and is not an all-inclusive list.)

- Performs preventive and routine maintenance on CAT, MAN, JOHN DEERE, and other marine diesel engines and any other marine related equipment.
- Performs in-house repairs on main engines, generators, electrical, engine air controls, hydraulic steering, systems and air conditions on all vessels and related equipment.
- Complies with all company policies and procedures.

- Maintains proper documentation on all paperwork.

## Qualifications:

- Minimum 5+ years of field service experience with marine diesel engines, hydraulic, electrical and air controls OR a combination of education and experience will be taken into consideration.
- High school diploma or equivalent required.
- Must be able to read and interpret certain documentation such as technical manuals, etc.
- Knowledge of full equipment maintenance procedures and ability to troubleshoot to determine causes of operating errors and deciding what to do about it, acting without supervision on repairs.
- Knowledge and experience in selecting and using appropriate tools and equipment to complete the required task.
